Subject: MS AntiTrust Settlement

Dear Dept of Justice,

I am writing to register my opinion regarding the recent settlement that has been proposed for the MicroSoft Anti-Trust case.

I think that it is a joke to be handing Microsoft an foot in the door of our schools as "punishment" for their anti-competitive practices. This will be more of a reward, as is will increase exposure to MS software to future computer users.

Please don't do this,

--
